PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying web applications using **React.js, Next.js, TypeScript, Python, Django, Django REST Framework, REST APIs, JWT authentication, and PostgreSQL**. Experienced in full-stack development through a **CRM live project as Team Lead**, contributing to frontend and backend development, REST API integration, JWT-based authentication, CRUD operations, database functionality, global search, and module integration. Also developed full-stack eCommerce applications using **React.js, Redux, Django REST Framework, and PostgreSQL**, along with a **Next.js-based eCommerce application**. Strong foundation in responsive UI development, client-server architecture, state management, relational databases, and software development workflows. **Seeking entry-level opportunities in Full Stack, Frontend, or Backend Development.**

TECHNICAL SKILLS

- **Frontend** — React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5, Material UI, Redux, Vite, Responsive Web Design
- **Backend** — Python, Django, Django REST Framework (DRF), Node.js, Flask, REST API Design, JWT Authentication, Role-Based Access Control (RBAC)
- **Database** — PostgreSQL, Relational Database Management Systems (RDBMS), Django ORM, SQL, Relational Database Design
- **Tools** — Git, GitHub, GitLab, Postman, VS Code, Figma, Vercel, Render, Cloud Deployment, Virtual Machines
- **Concepts** — Full Stack Development, State Management, Component Architecture, Client-Server Architecture, Team Leadership, Software Development Workflows

PROJECTS

CRM - Customer Relationship Management System | Team Lead – 5-Member Team 07/2026 – Present
Live Project | Next.js, React.js, TypeScript, Django REST Framework, Python, PostgreSQL | Vercel + Render

- Led a **5-member development team** in building and integrating a full-stack CRM application.
- Developed and integrated CRM modules, **REST APIs, authentication, CRUD operations, global search, and database functionality.**
- Managed **task distribution, Git/GitHub workflows, module integration, and troubleshooting** while contributing to both frontend and backend development.
- Deployed the frontend on Vercel and backend on Render.
- **Live Project:** View Project 🔗

ShopKart - Full Stack eCommerce Application
Individual project | React.js, Redux, Python, Django, Django REST Framework, PostgreSQL

- Developed a **full-stack eCommerce application** from a Figma design using **React.js, Django REST Framework, Redux, and PostgreSQL.**
- Implemented **JWT authentication, product management, cart, checkout, order history, and REST APIs** with a client-server architecture.

GoShop - Next.js eCommerce Application
Individual Mini Project | Next.js, React.js, Vercel

- Developed a **responsive eCommerce application** using **Next.js**, with reusable components, dynamic routing, and responsive layouts.
- Practiced both **App Router and Pages Router** approaches while implementing product listing, product details, cart, and contact pages.
- **Deployed on Vercel:** View Project 🔗

EDUCATION

Master of Computer Applications (MCA) 07/2020 – 04/2022
CCSIT, Marutharode | University of Calicut

Bachelor of Computer Applications (BCA) 07/2016 – 11/2019
Mercy College, Palakkad | University of Calicut

Higher Secondary (Plus Two) — Computer Science 06/2014 – 03/2016
GMMGHSS, Palakkad | Kerala State Board

TRAINING & CERTIFICATIONS

• **AI-Powered Full Stack Developer Internship (React + Python)** 10/2025 – Present
Upcode Software Labs

• **AI Bootcamp** 2025
Upcode Software Labs

ACHIEVEMENTS

- **Team Leadership**
Led a 5-member full-stack development team in building and integrating a CRM application, coordinating development tasks, frontend-backend integration, and overall project delivery.
